

SUPER-MID - N680XP

Citation 'Super' Sovereign

The 'Super' Sovereign. Unmatched performance and **bold, bespoke luxury.**

Introducing the 2025 refurbished 'Super' Sovereign — the fastest, most advanced Citation Sovereign in the world. With a max range of 3,200 nautical miles, top speeds exceeding 530mph, and a climb performance to 45,000 feet in just 25 minutes, this aircraft redefines super mid-size jet capability. Enhanced with performance winglets and proudly bearing the "XP" (Extra Performance) badge, the 'Super' Sovereign outpaces both the Sovereign and Sovereign+. Inside, its bold and bespoke interior design—featuring black leather high-performance seating, carbon fiber accents, and a two-zone cabin with a large divan—make it the most stylish and luxurious Sovereign flying today. Equipped with Starlink Wi-Fi, the cabin delivers uninterrupted connectivity for streaming and video conferencing – no compromises.

Simply put, this is not just a jet—it's a statement.
